1. Walter Gelon, residing at 622 Island Place, Redwood City, CA 94065, citizen of the United States of America
2. Ahmed Kamel, residing at 1645 Candace Way, Los Altos, CA 94024, citizen of the United States of America
3. Darren Stratemeier, residing at 857 Portwalk Place, Redwood City, CA 94065, citizen of the United States of America
4. Sun Hur-Diaz, residing at 4307 Shoal Creek Blvd., Austin, TX 78756

declare:

That we made and conceived the invention described and claimed in patent application:

Serial No. 09/328,911 filed in the United States of America on June 9, 1999 titled Practical Orbit Raising System and Method For Geosynchronous Satellites.

That we made and conceived this invention while employed by Space Systems/Loral, Inc. That the invention is related to the work we

are employed to perform and was made within the scope of our employment duties; That the invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Space Systems/Loral, Inc.

That to the best of our knowledge and belief: The invention was not made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
